

## Project Design Phase-II

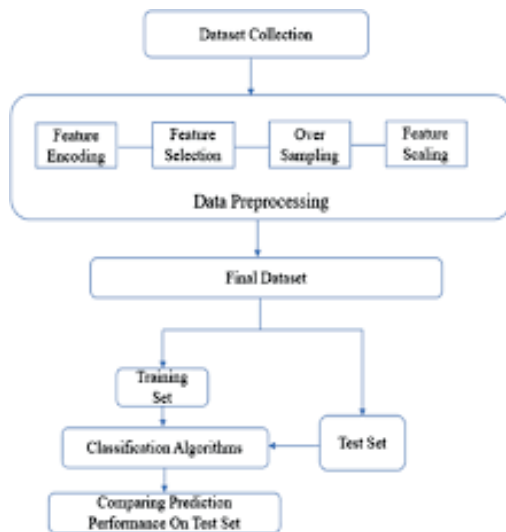

### Data Flow Diagram & User Stories

Date	28 June 2025
Team ID	LTVIP2025TMID35333
Project Name	Revolutionizing Liver Care : Predicting Liver Cirrhosis using Advanced Machine Learning Techniques
Maximum Marks	4 Marks

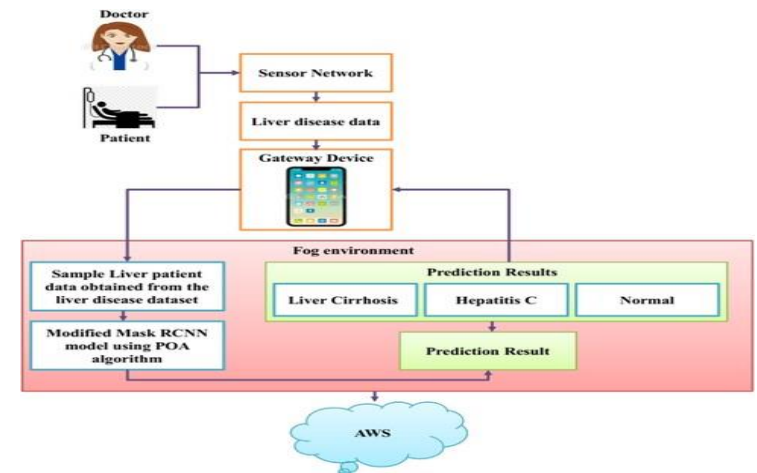

#### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

#### DFD: Revolutionizing Liver Care

## User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Disease checking	USN-1	As a user, I can check my liver problem for the application by entering health condition	I can access my own health values	High	Sprint-1
		USN-2	As a user, I will receive confirmation answer once I have checked for the application	I can receive confirmation Health condition	High	Sprint-1
		USN-3	As a user, I can check my health for the application through Facebook	I can check my health through Facebook Login credentials	Low	Sprint-2
		USN-4	As a user, I can check my health for the application through Email	I can check my health through Email Login credentials	low	Sprint-1
Customer (Web user)	Disease checking	It also same as the mobile user				
Customer Care Executive						
Administrator
